Maly

286 Wengue

Ref. 17092

The Maly fabric by Equipo DRT is a sophisticated, high-end textile design that redefines the concept of contemporary curtains by fusing the organic nobility of linen with the avant-garde of metallic threads. Designed for those seeking a natural aesthetic without sacrificing architectural brilliance, this fabric harmoniously integrates gold and silver filaments into its weave, creating a play of reflections that shift with the light. Thanks to the combination of its natural fibers and color, and its finish, Maly curtain fabric offers an impeccable drape with body and movement, guaranteeing privacy and transforming the light in any room with a unique personality and serene elegance. Due to its body and composition, it is ideal for curtains that rest lightly on the floor. Its structured weave allows it to appear elegantly flat, functioning as a canvas of light in large windows.
