Kuriakin

0735 Unico

Ref. 21106

Fabric with a strong defined geometric structure which fits mathematically, generating a 3D effect: some of them are squares, hexagons and other even triangles. The floral element at the background provides a subtle bond between masculine and feminine. The details of the little red hexagon at the vertices define its 3D effect. In the Sarabande collection designed by Pappenpop for Equipo DRT. These 300 cm wide printed fabrics are fire retardant and acoustic. Therefore they can be used both for homes and for contract and collective spaces.

Composition

58% Pol. - 52% Trevira
