Beta

001 Blanco

Ref. 21327

A flame-retardant curtain fabric with a geometric design, Beta is made of 100% Trevira CS and comes in a 320 cm width. Thanks to its grid-like design, which combines small transparent lines with more opaque stripes, Beta is the perfect fabric to lend a stylish nuance to natural light. This flame-retardant curtain can be used both in private residences as well as in hotels and public spaces; it is perfect for bedrooms, living rooms, halls, offices, and even auditoriums.
