Electra

993 Perla

Ref. 21421

An elegantly textured curtain fabric created from the combination of two different materials to produce an irregular, highly decorative, elegant, and variegated coloring, thanks to the double layer of fabric. A rhombus pattern in fil coupé completes the texturized design. 'Electra' comes in a 300 cm width, with a generous drape and a matte, natural-looking finish. 'Electra' is designed to combine perfectly with the 'Orestes' line of plain double fabric.
