Atlas

000 Natur

Ref. 21829

Imagine this fabric in a 3-meter window. Its geometric pattern will cast designer shadows on the floor as the sun moves, transforming the window into a dynamic work of art. Atlas is a hieroglyph of signs that represents an imaginary boat that sails looking for horizons and emotions for the years to come. It has been designed by Vicent Martínez based on some drawings by Ana Hernández. Atlas is a fabric for curtains made of viscose polyester with an advanced burnout technique that allows hieroglyphs to remain transparent.
