Akilon

231 Cafe

Ref. 21915

Akilon is a double-sided dim-out, acoustic and fire retardant fabric for curtains. On the one hand, Akilon has a flamed texture and on the other a smooth, satin-type texture, both sides are applicable interchangeably. The range of 24 colors is extensive, grays, naturals and beiges have been worked on without forgetting blues, pinks and ochres. Akilon blocks the entry of light at 98% opacity, being practically black-out in dark colors. Thus, with a decorative curtain we also have covered the blocking of the entry of light both in hotels, in public spaces and in residential areas.
