Sun-dark (black-out)

990 Bruma

Ref. 21945

'Sun-dark' is a flame retardant blackout fabric designed to offer total light blocking that combines functionality and design. An innovative fabric in the world of blackout blinds that offers the perfect solution for those looking for absolute darkness and a cozy atmosphere at any time of the day. A 100% blackout fabric in 330 cm. wide with a natural herringbone texture, which can be used double-sided and is also completely matt. Available in a range of 26 colours, from soothing neutrals to on-trend shades, 'Sun-Dark' covers the entire colour palette to suit any design need.

In addition to its function as a blackout curtain, 'Sun-dark' is Class 1 certified thanks to its FR polyester composition. Its width of 300 cm. guarantees full coverage on large and small windows, without sacrificing its functionality and effectiveness. Regarding maintenance, although 'Sun-dark' is machine washable, direct ironing is not recommended, thus ensuring the preservation of its innovative features and texture over time.
