Obulco

002 Beige

Ref. 22229

Obulco is a jacquard velvet with a geometric design and a strong decorative character that brings personality and dynamism to any setting. Its pattern, with a subtle ethnic accent and a rich multicolored palette –combining greens, blues, greys, and natural tones– turns upholstery, cushions, and accessories into statement pieces within the space.

Thanks to its soft texture and durable structure, Obulco is ideal for both residential and contract applications. In addition, it can be supplied with a fire-retardant finish upon request, meeting the requirements of the hospitality sector. Its color range has been designed to coordinate perfectly with Clunia velvet, allowing textile compositions with both character and harmony.
