Moariss FR

331 Añil

Ref. 22306

A jacquard moiré fabric created for upholstery and curtains in both residential and contract projects. Its 300 cm width combines a sophisticated aesthetic of optical ripples with advanced sound-absorbing properties, optimised for the acoustic treatment of public spaces such as hotels, auditoriums and offices.

Moariss is manufactured from flame-retardant polyester and Trevira, and therefore complies with the main international fire safety standards. It can be customised with special colours on request to suit the project's requirements.
